1. Introduction

- This release document provides details about the release of the Hanwha Vision BI Dashboard Web Application.
- It includes AI camera data integration, people/vehicle counting, utilization reporting, and dashboard visualization etc.

2. Release Summary

Release Version	V3.0.2
Release Date	08-Sep-2025
Environment	UAT (Pre-Production)
Release Owner	Parth Jotangiya

2.1. New Features:

- Added a new **Traffic** category in the “Add Widget” popup and implemented the necessary permissions.
- Moving forward,
 - ❖ Users will be able to see the following widgets under “**Vehicle**” category:
 - Vehicle In/Out
 - Vehicle Count by Type
 - Average Vehicle Counting
 - Vehicle Heatmaps
 - ❖ Users will be able to see the following widgets under “**Traffic**” category:
 - Vehicle In Wrong Direction
 - Vehicle U Turn Detection
 - Pedestrian Detection
 - Vehicle Queue Analysis
 - Stopped Vehicle Count Time
 - Vehicle Turning Movement Counts
 - Speed Violation by Vehicle
 - Traffic Jam by Day

2.2. Enhancements:

- Improved image resolution for few widgets.
- Users can now see the **VI Icon** under **Control Panel\Programs\Programs and Features**.
- The **application version** will be displayed under the **Control Panel\Programs\Programs and Features** and the **Installer Popup** during installation.
- The **application icon** will be **automatically removed from the desktop** when the user uninstalls the application.
- An **appropriate error message will be displayed in the live camera preview** if there is any issue with the configured camera.
- Improved form field focus and step-by-step keyboard navigation across the application.

- Removed unused files from the project source code to improve maintainability and reduce project size.

2.3. Bug Fixes:

- Fixed issue where the Dashboard could not be deleted.
- Fixed issue where cameras could not be deleted from *Floor Plans & Zones*.
- Resolved Camera IP Address linking issue with HTTPS setup in the *Manage Device* screen.
- Fixed issue where the camera list was not properly populated in the *Setup Popup* for People & Vehicle Widgets.

2.4. Deployment Instructions:

- Please refer to the “**Installation Guidelines for Vision Insight BI Dashboard Web App**” document shared earlier.
